Re: Station WUST(AM)
Washington, D.C.
FIN: 48686
File No. BPTA-20141218AFY
Request for Further Extension of Program Test Authority

Dear Ms. Dortch:

This office is counsel to New World Radio, Inc. ("New World"), the licensee of Station WUST(AM), Washington, D.C. New World currently operates WUST(AM) pursuant to Program Test Authority, granted on December 24, 2014, in File No. BPTA-21041218AFY.

On December 18, 2014, New World filed with the Commission an application (File No. BMML-20141218AFW), on FCC Form 302-AM, requesting a license to cover the construction permit issued to New World in File No. BP-20130926BCX. The PTA expired on February 24, 2015.

On February 23, 2015 and May 29, 2015, New World requested extensions of the PTA owing to the fact that the conditions precedent to the grant of the license application, arising from the actions of other parties, had not been completed. The extension requests were granted on February 24, 2015 and May 22, 2015 and now expire on August 22, 2015.

New World hereby seeks an additional extension of the PTA while the Media Bureau considers the pending license application and continues to await submission of similar license applications filed by the licensees of the two AM radio stations, WZHF(AM) and WJFK(AM), that share the newly constructed antenna systems.

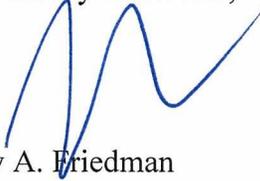

The extension of the PTA will be in the public interest as it allows New World to continue to broadcast the signal of WUST in service to the listening public that is served by the Station.

Ms. Marlene H. Dortch

Consequently, New World hereby requests that the PTA be extended by the Media Bureau, for a period of 90 days, to allow for the actions of the other licensees to take place and the completion of the Bureau's review of the license application for WUST.

Should there be any questions in regard hereto, please communicate with the undersigned.

Respectfully submitted,

Barry A. Friedman
