FCC Form 346
Venture Technologies Group, LLC
KSFV-LP
Facility ID 49704
Exhibit 7

Environmental Protection Act

The proposed facility will not have a significant environmental impact as defined by 47 C.F.R. § 1.1307.

The proposed station will operate from a side mounted antenna on a radio site tower.

Access is not available to the site and tower by the general public. Access to the tower is on a controlled basis. When necessary to protect workers, we reduce power or temporarily suspend operation.

The proposed station will place a field at two meters elevation adjacent to the tower base which does not exceed 5% of ANSI general public limits.

The facility is not located within environmentally sensitive areas. There is no change in surface features and the tower has been in place for many years with no change in height. The tower is not equipped with high intensity white lights.
