

Compliance with New Broadcast Multiple Ownership Rules

Infinity Broadcasting Corporation has an attributable interest in the following five FM radio stations and one AM radio station in the Dallas/Ft. Worth Arbitron Metro Survey Area (the "Arbitron Metro"): KLUV-FM, Dallas, Texas (Facility ID No. 67195); KOAI-FM, Ft. Worth, Texas (Facility ID No. 23440); KRBV-FM, Dallas, Texas (Facility ID No. 63779); KLLI-FM, Dallas, Texas (Facility ID No. 1087); KVIL-FM, Highland Park-Dallas, Texas (Facility ID No. 28624); and KRLD(AM), Dallas, Texas (Facility ID No. 59820). Based on BIA Investing in Radio 2003, there are 63 commercial and 13 noncommercial radio stations in this Arbitron Metro. Under the new broadcast multiple ownership rules, in an Arbitron Metro with 45 or more commercial and noncommercial radio stations, a party may own up to eight commercial radio stations, only five of which may be in one class. The application before the Commission does not propose any changes to Infinity's current ownership of radio stations in this Arbitron Metro. Thus, the Commission's consent to this application would be fully consistent with the new broadcast multiple ownership rules that are not yet effective.
