RE: KCSN-FM  
Attn.: Sky Daniels  
18111 Nordhoff St  
Northridge, CA 91330-8312

Re: Channel 6 Interference Consent

Dear Mr. Daniels

Obidia Porras., licensee of Station KUHD-LP, Camarillo, California hereby states that it has no objection to the construction and operation of a proposed modification to noncommercial educational FM translator station K210EO, licensed to KCSN-FM on Channel 89.9 in Santa Paula/Camarillo, California, pursuant to the engineering specifications set forth in Attachment 1.

KCSN proposes to modify its existing construction permit, specifying a relocation of two hundred yards from proposed tower site. We anticipate no new or additional interference as a result of this proposal.

Our consent is conditioned on the University's agreeing at its expense to investigate expeditiously and in good faith and, if necessary, to resolve, any new complaints of Channel 6 interference to our viewers in the K210EO service area occurring within one year of filing of the KCSN-FM license application covering the changes consented to by us herein. The FM Translator station's reliance upon this consent in connection with its FCC application will constitute its acceptance of this condition.

Sincerely,

Owner / President and General Manager  
KUHD-LP/Ventura, CA
