To Whom It May Concern:

This is a letter in support of the request for a 100-watt LPFM radio station in Ligonier, Indiana.

This public station could be a great asset to the West Noble Athletic Department by broadcasting many of our sporting events. We also have a mass media class that could benefit from such a station. It would even be possible to broadcast West Noble School Corporation activities such as closings, delays, daily announcements, calendars, coming events, and even assignments. The Ligonier community needs this type of informative avenue.

In conclusion, the West Noble Athletic Department is totally supportive of this type of addition to our community. If you have any questions, please contact me.

Sincerely,

Rick Mathew  
Athletic Director
