

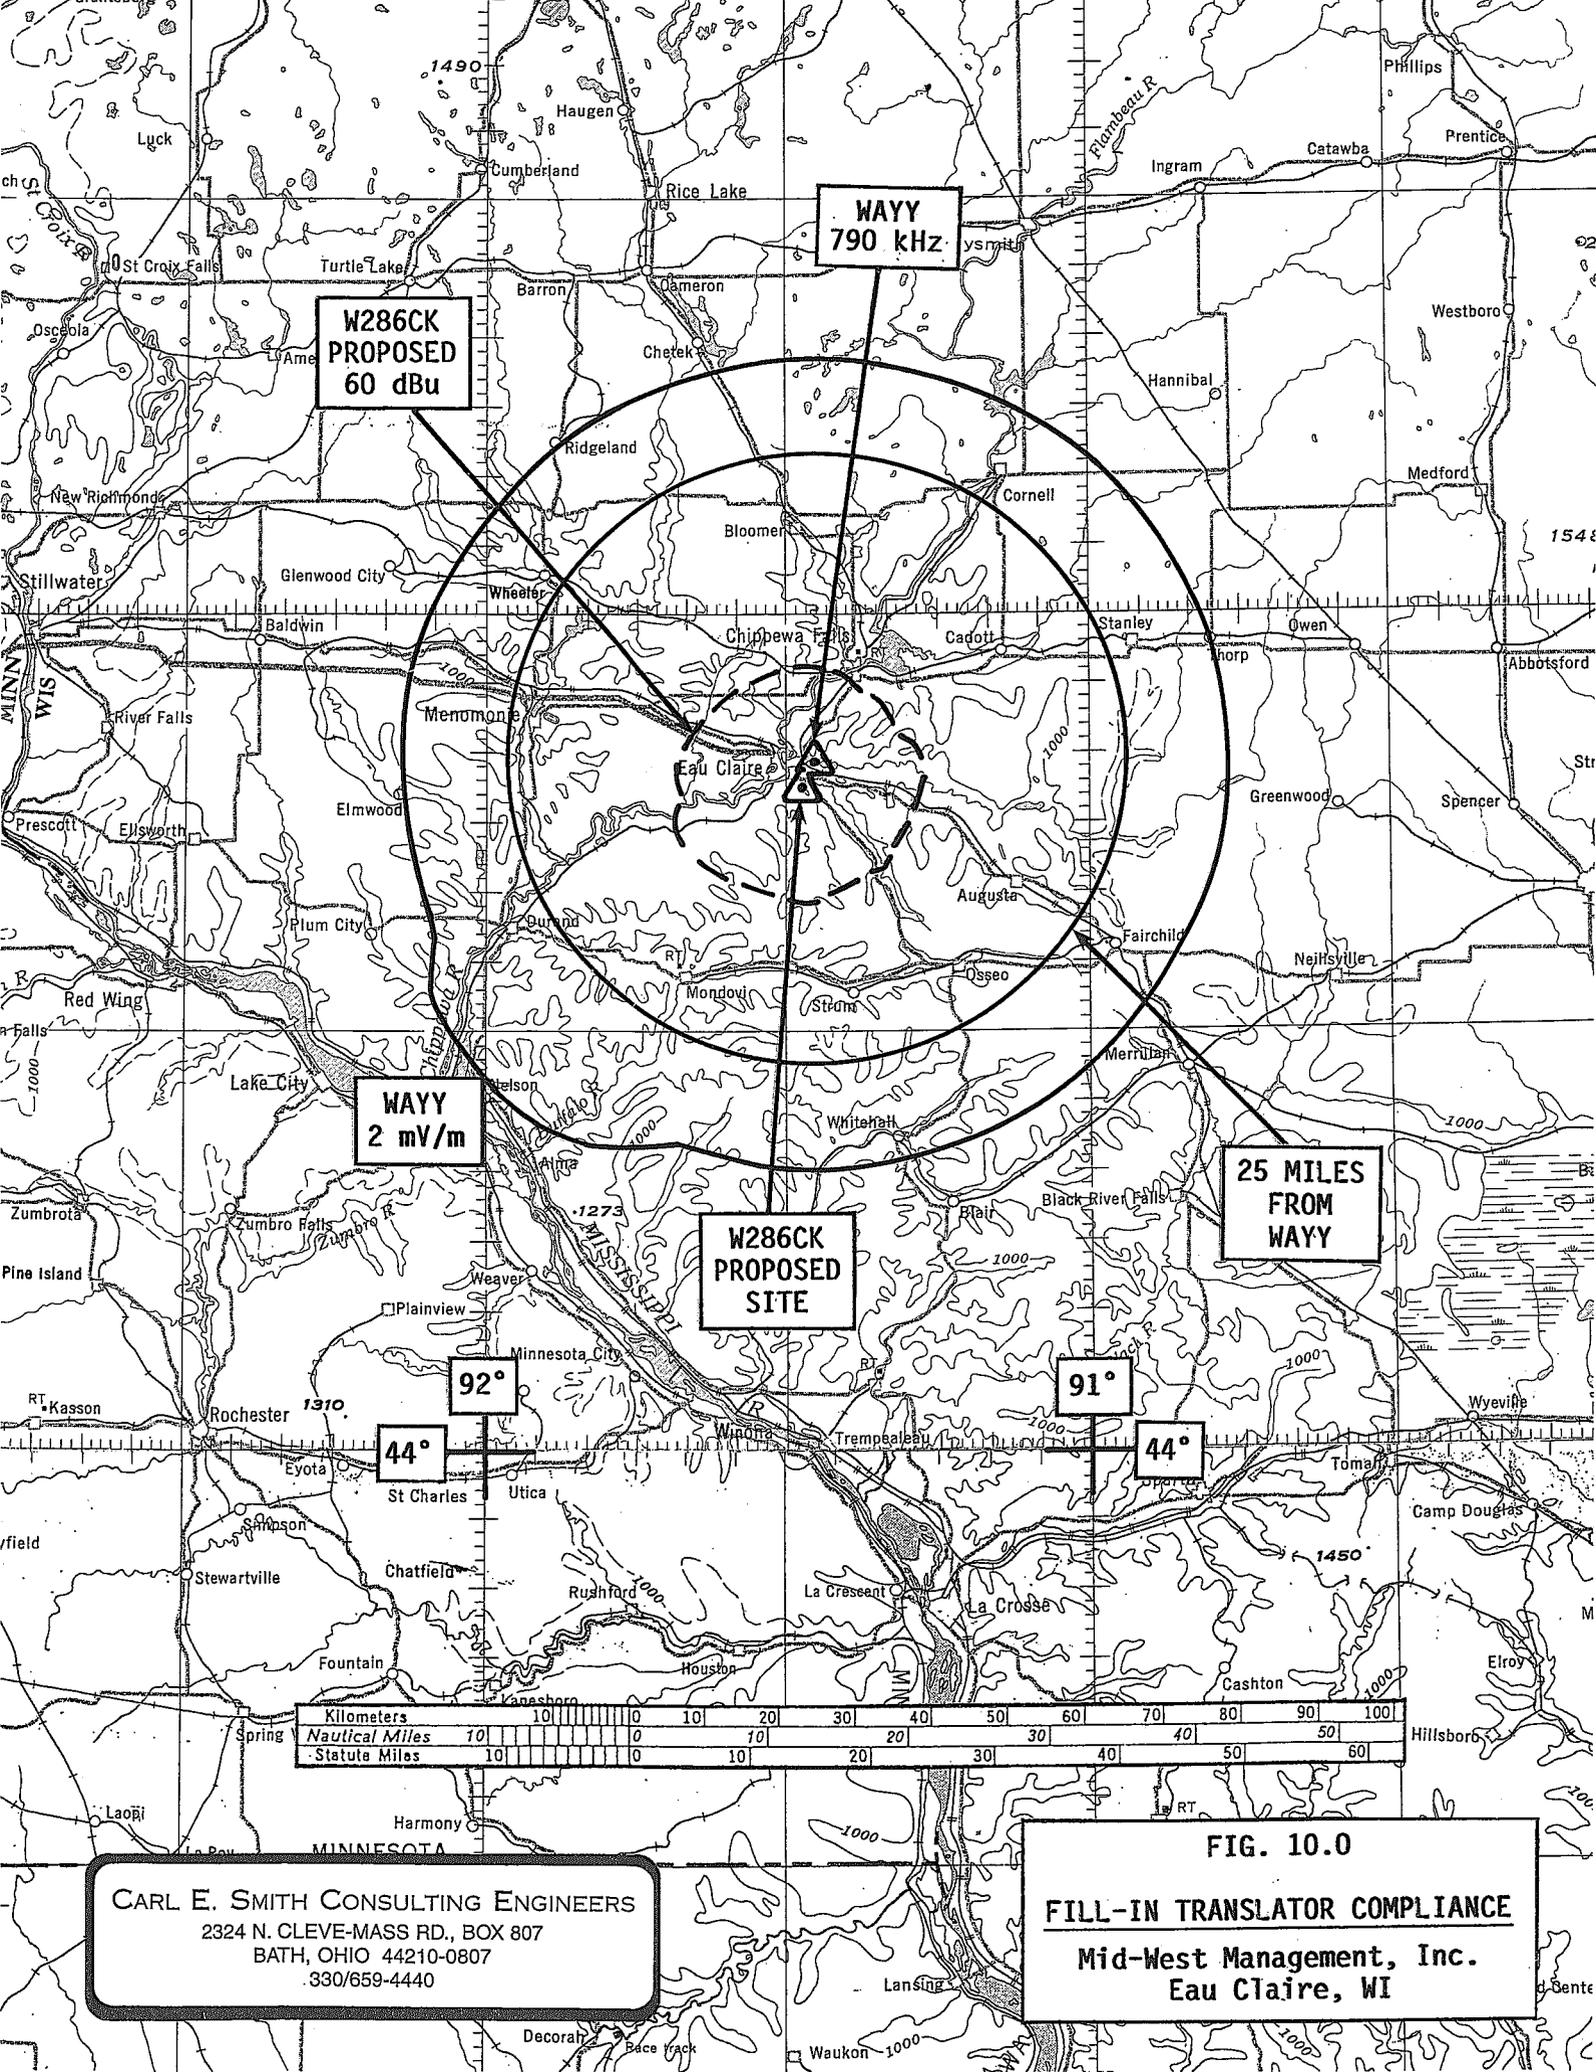

EXHIBIT 10
(Page 1 of 2)

FILL IN TRANSLATOR REQUIREMENTS

Mid-West Management, Inc.
Eau Claire, WI

Figure 10.0 is a map exhibit depicting the predicted 60 dBu contour for the proposed W286CK facilities in relation to the predicted 2 mV/m contour for facilities of WAYY(AM) - Eau Claire, Wisconsin, the proposed primary station for this translator. As shown in this exhibit, the proposed 60 dBu contour will be totally contained within the predicted 2 mV/m daytime contour for WAYY and also will not extend beyond a distance of 25 miles from the WAYY transmitter site. As a result, these proposed facilities fully comply with the restrictions applicable to a fill in translator for an AM station.
