FCC Registration No. 1054432  
BWLK Project No. 39237

Dear Mr. Mullinax:

This letter is to certify that the four-bay, directional FM antenna installed for WBCG, located west of Woodside Street and south of Jenks Drive, Murdock, Florida (Charlotte County) was oriented to 104° true north azimuth. The 104° measurement was rounded from the actual measurement of 103°35'.

Our survey methods included aligning the four antennas while viewing through a Topcon theodolite and obtaining coordinate values with sub-meter GPS equipment.
