

July 17, 2009
Mr. Peter Fretwell
WWFM P.O. Box B
Trenton, NJ 08690 - U.S.A.

Peter:

WPVI-TV in Philadelphia has had the opportunity to review the technical parameters for your proposed facility change. We have no objection to WWFM filing with the FCC based on those current parameters.

If for some reason the technical parameters have to be amended or modified after filing, WPVI-TV requires that we have the opportunity to review those changes before the FCC grants your request.

Best regards,

Hank Volpe
Vice President/ Director of Engineering
WPVI-TV
