Re: Tower Broadcasting LLC (TB)
WELM(AM), Elmira, NY
Facility Identification Number: 52120
Special Temporary Authority (STA)
BESTA-20221209AAC

Dear Mr. Ichikawa:

This is in reference to the request filed on December 9, 2022. TB requests a further extension of the STA granted on February 5, 2014, to continue operating with nighttime parameters at variance to allow time to file the required FCC Form 301 applications for WELM and WEHH to change to permanent day and night ND operation.¹ In support of the request, TB said that it plans to file the applications in the coming months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and TB may continue to operate at night with DA parameters at variance and reduced power if needed to maintain monitor points within licensed tolerances, with no change to the licensed 5 kW daytime ND operation. TB must reduce power or cease operations if complaints of interference are

¹ WELM(AM) is licensed for operation on 1410 kHz with 5 kW day (ND) and 1 kW night (DA).

received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **June 28, 2023**.

Sincerely,
