Richard Jenkins  
President  
Educational Media Foundation  
5700 West Oaks Boulevard  
Rocklin CA 95765

Dear Mr. Jenkins:

WOWT-TV, Channel 6, hereby grants The Educational Media Foundation (EMF) permission to amend the facilities of KMLV Ralston on Channel 201 (88.1 FM). The station shall be constructed on the WOWT-TV tower (located at 41-18-40/96-01-37), and shall operate at 3,700 watts. (vertical only)

If interference should arise due to the operation of EMF's FM Translator on 88.1 MHz, EMF agrees to immediately cease broadcasting until a solution to the interference can be found. WOWT-TV will be the sole determiner if interference occurs, due to the operation of this translator. EMF will also supply TVI filters to listeners whose signal may be affected by the translator at no cost to WOWT-TV viewers.

Should you have any further questions, please call me at (402) 233-7981. Thank you.

Sincerely,

Jay Nix  
Chief Engineer
