Saint Helens, OR 97051

Re: The Mountain Broadcasting LLC (TMB)  
KOHI(AM), St. Helens, OR  
Facility Identification Number: 70467  
Special Temporary Authority (STA)  
BESTA-20220131AAD

Dear Mr. Rowe:

This is in reference to the request filed on January 31, 2022. TMB requests a further extension of the STA granted on July 2, 2020, to continue operating from an alternate site with a long wire antenna to allow time to file the required FCC Form 301 application.<sup>1</sup> In support of the request, TMB stated that it plans to file the application shortly to propose a new ND antenna system at the site coordinates shown below.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and TMB may continue to operate with the following facilities:

Geographic coordinates	45° 51' 59" N, 122° 49' 02" W (NAD 1927)
Frequency	1600 kHz
Hours of operation	day and night

---

<sup>1</sup> KOHI(AM) is licensed for ND operation on 1600 kHz with 1 kW (day) and 0.01 kW (night).

Operating power  
Antenna type

0.05 kW (day), 0.005 kW (night)  
120 foot long-wire antenna

TMB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **August 9 2022**.

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" and last name "Szczesny" clearly distinguishable.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
