TECHNICAL STATEMENT

1. This Technical Statement and attached exhibits were prepared on behalf of Cumulus Media Inc. ("CMI") in connection with the proposed transfer of control of Citadel Broadcasting Corporation and its indirect licensee subsidiaries, Radio License Holding CBC, LLC ("RLH"), Radio License Holding IX, LLC ("RLHIX") and Radio License Holding X, LLC ("RLHX"). RLH is the licensee of WXLN 980 kHz, and WQGN-FM, Channel 288A, Groton, Connecticut

and WMOS<sup>1</sup>, Channel 272A, Stonington, Connecticut.<sup>2</sup> RLHIX is the licensee of WPLJ, Channel 238B, New York, New York; and RLHX is the licensee of WABC, 770 kHz, New York, New York. Cumulus is the licensee WFAS-FM, Channel 280A, Bronxville, New York; WFAS, 1230 kHz, White Plains, New York; WFAF-FM, Channel 292A, Mount Kisco, New York; WEBE, Channel 300B, Westport, Connecticut; WPUT, 1510 kHz, Brewster, New York; WDBY, Channel 288A, Patterson, New York; WALL, 1340 kHz, and WRRV, Channel 224A, Middletown, New York; WZAD, Channel 247A, Wurstboro, New York; WPD A, Channel 291A, Jeffersonville, New York; WKXP, Channel 232A, and WKNY, 1490 kHz, Kingston, New York; WEOK, 1390 kHz, and WPDH, Channel 268B, Poughkeepsie, New York; WCZX, Channel 249A, Hyde Park, New York; WRRB, Channel 245A, Arlington, New York; WINE, 940 kHz, and WRKI, Channel 236B, Brookfield, Connecticut; and WICC, 600 kHz, Bridgeport, Connecticut.

2. WPLJ, WABC, WFAS, WFAS-FM, WFAF-FM, WPUT, WEBE and WDBY are licensed to communities within a metro county in the New York, New York Arbitron Market. WEBE is considered a contributing station in the New York, New York market. WEBE is licensed to a community in Fairfield County, Connecticut. Fairfield County is divided into several parts or “splits”. The entire county is not considered in any one market, but is actually divided into four markets: New York, Stamford-Norwalk, Bridgeport and Danbury. The portion of Fairfield County designated as “Fairfield (SN Split)” is considered the Stamford-Norwalk market. The Fairfield (SN Split) is an embedded market and is considered part of the New York

---

1) There is an outstanding permit for WMOS which is also considered herein.

2) WELJ, Channel 284A, Montauk, New York is to be assigned to a Trustee and is therefore not considered further.

metro market. WEBE is a subject station in both the Stamford-Norwalk and the New York markets. WALL and WRRV are licensed to communities within a metro county in the Newburgh-Middletown, New York Arbitron Market. WZAD is not licensed to a community in a metro county in any Arbitron market, but is considered “home” to the Newburgh-Middletown, New York market. WPDA is not licensed to a community in a metro county in any Arbitron market. WEOK, WCZX, WPDH and WRRB are licensed to communities within a metro county in the Poughkeepsie, New York Arbitron Market. WKXP is not licensed to a community in a metro county in any Arbitron market, but is considered “home” to the Poughkeepsie, New York market. WKNY is not licensed to a community in a metro county in any Arbitron market. WINE and WRKI are licensed to communities within a metro county in the Danbury, Connecticut Arbitron market. WDBY is considered “home” to the Danbury, Connecticut market, but is licensed to a community in a metro county in the New York, New York market. WICC is licensed to a community in a metro county in the Bridgeport, Connecticut Arbitron Market. WXML. WQGN-FM and WMOS are all licensed to a metro county in the New London, Connecticut Arbitron market. Therefore, this review will verify compliance of commonly owned stations in both rated and non-rated markets.

### **NEW YORK, NEW YORK ARBITRON/BIA MARKET REVIEW**

3. As shown on Exhibit #1, there are 150 AM and FM (commercial and non-commercial) stations listed in the New York, New York Arbitron Market (Market #1). As reflected in Exhibit #1, Arbitron only considers those portions of Fairfield County indicated as “Fairfield (SN Split)

Balance” and “Fairfield (SN Split) HDHA”, not the entire Fairfield County area, as being in the New York market. Exhibit #1B is a portion of the 2009 Arbitron Radio Metros map<sup>3</sup> that shows only the portion of Fairfield County, Connecticut depicted as “SN Split” that is located within the confines of the New York, New York Market. The balance of the county is divided up into Fairfield (D split) for the Danbury, Connecticut market (Exhibit #1C) and Fairfield (BR split) for the Bridgeport, Connecticut market (Exhibit #1D). Only the Stamford-Norwalk, Connecticut market shares the Fairfield (SN split) designation (Exhibit #1E). As such, only the Stamford-Norwalk stations are considered embedded in the New York, New York market.<sup>4</sup> Therefore, only stations in New York or those in Fairfield (SN split) are considered metro stations in the New York, New York market. Upon consummation of the proposed transaction, CMI would control five FM stations and three AM stations in the market (WPLJ, WABC, WFAS, WFAF-FM, WFAS-FM, WPUT, WDBY, and WEBE). The number of stations indicated falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. Therefore, CMI will be in compliance in the rated New York, New York market.

#### **NEWBURGH-MIDDLETOWN, NEW YORK ARBITRON/BIA MARKET REVIEW**

4. As shown on Exhibit #2, there are seventeen AM and FM (commercial and non-commercial) stations listed in the Newburgh-Middletown, New York, Arbitron Market (Market #138). Upon consummation of the proposed transaction, CMI would control two FM stations and one AM station in the market (WALL, WRRV, and WZAD). The number of stations indicated

---

3) This is the most current map available from the Arbitron website.

4) Arbitron lists Nassau-Suffolk as an additional embedded market within the New York market. In this additional market, the metro county, or portion of the county, is also shared by the larger encompassing New York market.

falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, CMI will be in compliance in the rated Newburgh-Middletown, New York market.

#### **POUGHKEEPSIE, NEW YORK ARBITRON/BIA MARKET REVIEW**

5. As shown on Exhibit #3, there are nineteen AM and FM (commercial and non-commercial) stations listed in the Poughkeepsie, New York, Arbitron Market (Market #164). Upon consummation of the proposed transaction, CMI would control four FM stations and one AM station in the market (WEOK, WCZX, WPDH, WRRB, and WKXP). The number of stations indicated falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules. At this level, common ownership or control of up to six stations with no more than four in the same service is permissible. Therefore, CMI will be in compliance in the rated Poughkeepsie, New York market.

#### **STAMFORD-NORWALK, CONNECTICUT ARBITRON/BIA MARKET REVIEW**

6. As shown on Exhibit #4, there are ten AM and FM (commercial and non-commercial) stations listed in the Stamford-Norwalk, Connecticut Arbitron Market (Market #147). Upon consummation of the proposed transaction, CMI would control one FM station in the market (WEBE). The number of stations indicated falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, provided the number of stations to be

commonly held does not exceed 50% of the stations in the market, is permissible. Therefore, CMI will be in compliance in the rated Stamford-Norwalk, Connecticut market.

#### **DANBURY, CONNECTICUT ARBITRON/BIA MARKET REVIEW**

7. As shown on Exhibit #5, there are nine AM and FM (commercial and non-commercial) stations listed in the Danbury, Connecticut Arbitron Market (Market #203). Upon consummation of the proposed transaction, CMI would control two FM stations and one AM station in the market (WINE, WRKI, and WDBY).<sup>5</sup> The number of stations indicated falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations with no more than three in the same service is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Therefore, CMI will be in compliance in the rated Danbury, Connecticut market.

#### **BRIDGEPORT, CONNECTICUT ARBITRON/BIA MARKET REVIEW**

8. As shown on Exhibit #6, there are ten AM and FM (commercial and non-commercial) stations listed in the Bridgeport, Connecticut Arbitron Market (Market #123). Upon consummation of the proposed transaction, CMI would control one AM station in the market (WICC). The number of stations indicated falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations with no more than three in the same service is permissible, provided the number of

---

5) WPUT was removed as "home" from this market, but if considered, the market would still be in compliance.

stations to be commonly held does not exceed 50% of the stations in the market. Therefore, CMI will be in compliance in the rated Bridgeport, Connecticut market.

#### **NEW LONDON, CONNECTICUT ARBITRON/BIA MARKET REVIEW**

9. As shown on Exhibit #7, there are twelve AM and FM (commercial and non-commercial) stations listed in the New London, Connecticut Arbitron Market (Market #177). Upon consummation of the proposed transaction, CMI would control one AM station and two FM stations in the market (WXML, WQGN-FM and WMOS).<sup>6</sup> The number of stations indicated falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations with no more than three in the same service is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Therefore, CMI will be in compliance in the rated New London, Connecticut market.

#### **CONTOUR OVERLAP ANALYSIS**

10. WZAD is considered "home" to the Newburgh-Middletown, New York market and WPDA, while a non-metro station, does have contour overlap with other stations in that market. WKXP is considered "home" to the Poughkeepsie, New York market, and WKNY is a non-metro station that has contour overlap with other stations in that market. As such, a study has been conducted to verify that the ownership of these stations, in conjunction with the other stations in the respective markets, is also in compliance with the Commission's multiple ownership rules.

---

6) WELJ is to be assigned to a Trustee.

The city grade contours of the subject stations considered in the contour overlap analysis are shown on Exhibit #8.<sup>7</sup> As noted, the locations of the city grade contours of the stations create three distinct radio markets requiring review. Market #1 consists of FM stations WZAD and WPDA. Market #2 consists of AM station WALL and FM stations WZAD and WRRV. Market #3 consists of AM stations WEOK and WKNY and FM stations WKXP, WPDH, WCZX and WRRB.

11. The city grade contours of WZAD and WPDA will be used to determine the Radio Market Boundary for Market #1; the city grade contours of WZAD, WALL, and WRRV will be used to determine the Radio Market Boundary for Market #2; and the city grade contours of WPDH and WKNY will be used to determine the Radio Market Boundary for Market #3. These contours will be used to determine the number of other stations in the relevant market to which the subject stations in the respective market will then be added to reach the total number of stations in or providing service to the respective market. No stations with transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered. Further, no other facility to be controlled by CMI will be considered as a market contributor, unless it is a subject station in the radio market under study.

12. Exhibit #9 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to Market #1, which shows five contributing stations. Exhibit #10 is a tabulation of the stations in Market #1. A total of seven stations are shown, including the two

---

7) The remainder of the stations in the rated markets do not have contour overlap with the "home" to market stations or the non-metro stations.

subject stations (WPDA and WZAD).<sup>8</sup> The number of stations depicted falls in the fourteen or fewer stations tier of 73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations with no more than three in the same service is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Therefore, CMI will be in compliance in the non-rated Market #1.

13. Exhibit #11 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to Market #2, which shows four contributing stations. Exhibit #12 is a tabulation of the stations in Market #2. A total of seven stations are shown, including the three subject stations (WZAD, WRRV, and WALL).<sup>9</sup> The number of stations depicted falls in the fourteen or fewer stations tier of 73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations with no more than three in the same service is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Therefore, CMI will be in compliance in the non-rated Market #2.

14. Exhibit #13 is a depiction of the eleven AM and FM stations (commercial and non-commercial) providing service to the WPDH/Radio Market boundary. Exhibit #14 is a tabulation of the stations in Radio Market #3. A total of seventeen stations are shown, including the six subject stations (WEOK, WKNY, WKXP, WPDH, and WRRB).<sup>10</sup> The number of stations depicted falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's

---

8) There are additional stations, but they are not considered as the stations identified are sufficient to allow common control of the stations which will be commonly owned.

9) See Footnote 8, *supra*.

10) See Footnote 8, *supra*.

rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, CMI will be in compliance in the non-rated Market #3.

15. Based on the compliance shown in both the rated and non-rated markets, the proposed transfer of control is in compliance with the Commission's rules, as it relates to the markets reviewed.

16. The foregoing technical statement was prepared on behalf of Cumulus Media Inc. by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities in the relevant BIA/Arbitron market was determined using the BIA Financial Network, Inc. Media Access Pro, Version 4.5. BIA database. Technical data related to AM and FM facilities was extracted from the Commission's CDBS database. We assume no liability for errors or omissions in either database which may be adverse to the information contained herein.

For Arbitron surveys conducted in the U.S., each Arbitron radio market is composed of up to two geographic areas: the Metro Survey Area (Metro) and the Total Survey Area (TSA).

The Metro includes one or more counties and is the primary survey area. The TSA includes all of the counties in the Metro as well as one or more non-Metro counties contiguous to the Metro area. Essentially, non-Metro TSA counties are areas where local residents can hear neighboring local radio stations.

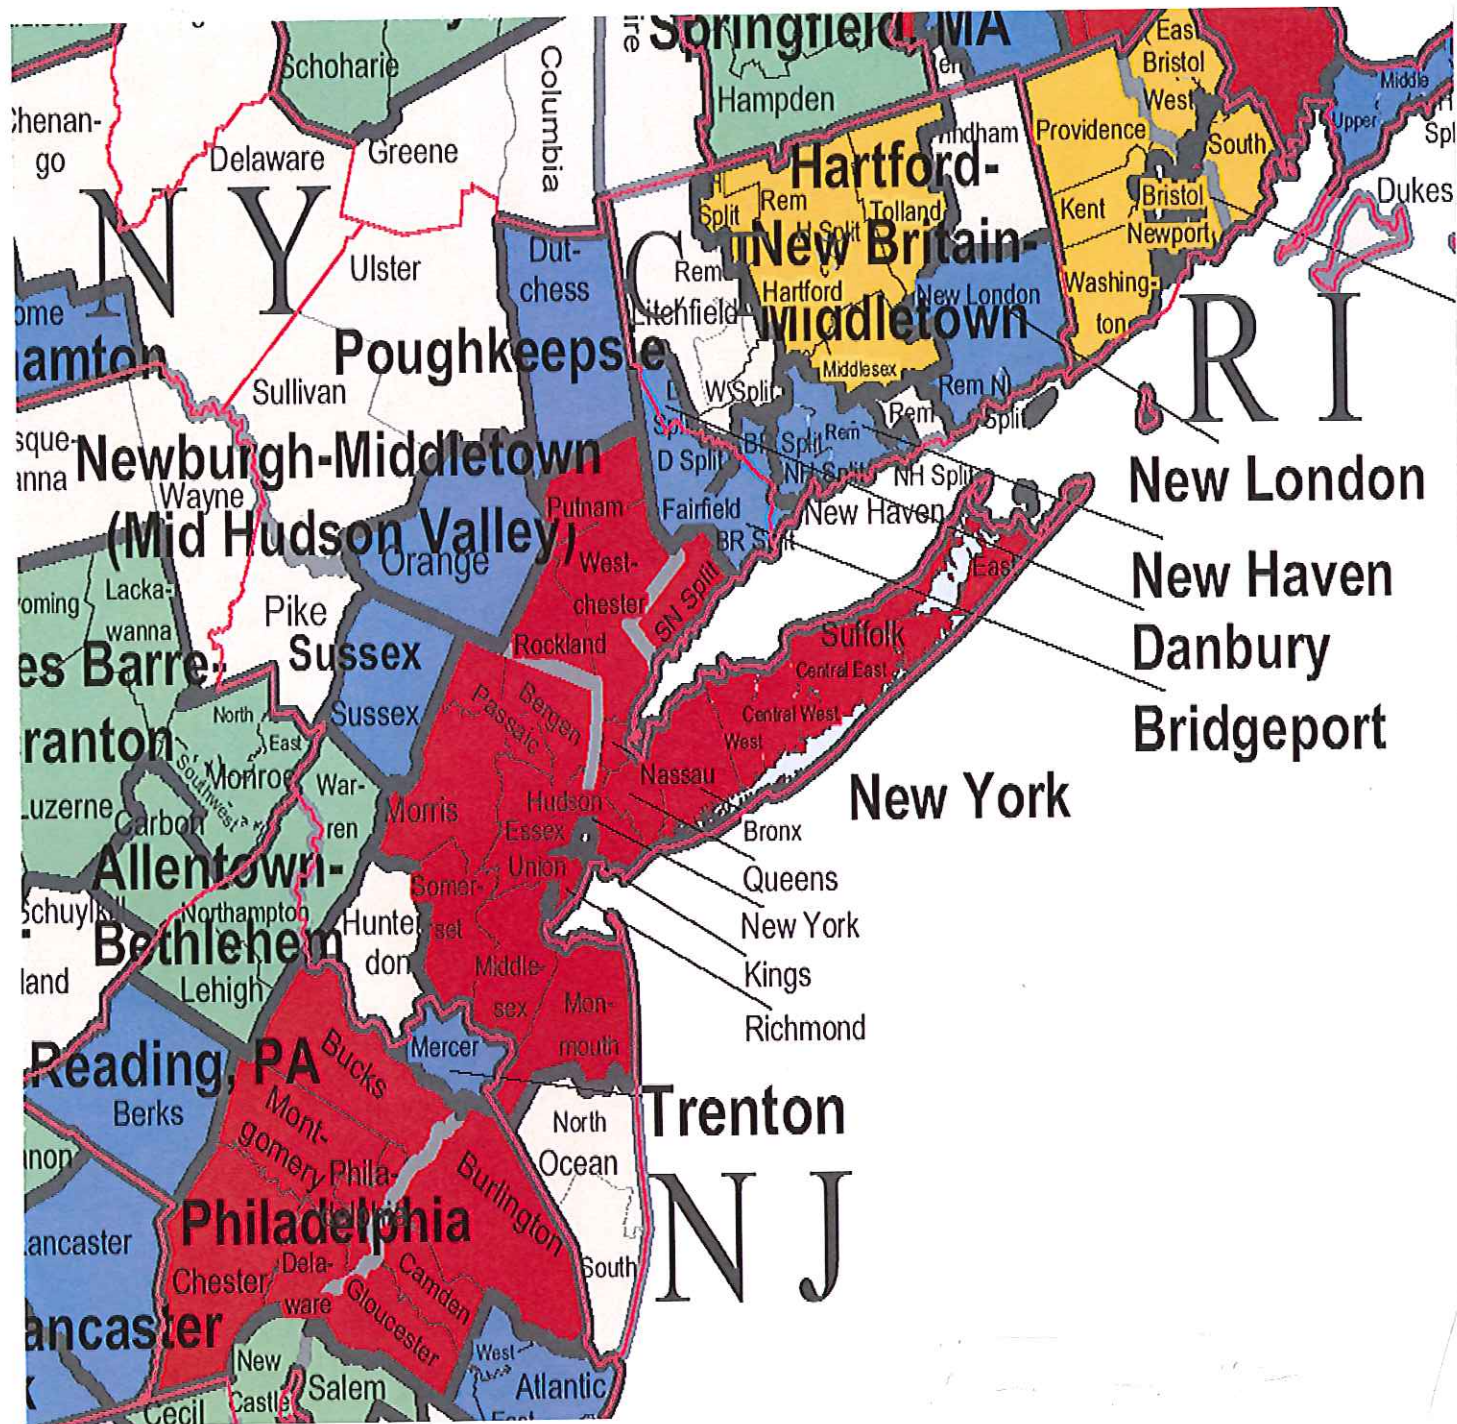

Arbitron market definitions are relatively static. When there is a market redefinition, it is implemented in either the Spring or Fall surveys. For a full description of how Arbitron defines and updates its markets, please see our Description of Methodology, which is available to Arbitron clients in the Methodology section of the Arbitron eBook<sup>SM</sup>, accessible via the secure Arbitron client Web site, [my.arbitron.com](http://my.arbitron.com). Please contact the Arbitron Customer Service Team at (800) 543-7300 if you need assistance.
