DECLARATION OF GEORGE M. SMALL IN SUPPORT OF FCC FORM 302-FM.

I hereby declare:

That during the date of May 22, 2014, I performed radio frequency electromagnetic (RF) field strength measurements throughout the WYZX transmitter site area and surrounding area, to determine if there are any areas that exceed the FCC guidelines for human exposure to RF fields. All measurements were made using a Narda broadband field meter, model NBM-520 (part number 2403/01, serial number B-0277), equipped with a Narda E-Field probe, model EF-0391 (part number 2402/01, serial number A-0422).

That I have been involved in radio broadcast engineering and operations for 20 years.

That I hold a BS in Mechanical Engineering from Boston University (1989).

That all statements contained within this document are true and accurate to the best of my knowledge and belief, and as to statements made of belief, they are believed to be true, except for information for which the Federal Communications Commission takes official notice.
