ENGINEERING STATEMENT
MEREDITH CORPORATION
MODIFICATION OF BMPD TT-20110127AAR
DIGITAL TELEVISION TRANSLATOR STATION FOR W64BO
FRANKLIN, NORTH CAROLINA
CH 15, 5.0KW-D, 687 MTR. HAAT

This statement supports an application by Meredith Corporation licensee of W64BO a television translator station licensed to serve Franklin, North Carolina. Applicant was granted a construction permit, BMPD TT-20110127AAR, call sign W15CW-D, to flash-cut operation of W64BO to digital on displacement channel 15.

Applicant seeks to modify its construction permit by only changing the transmitter output power from 0.368 kW to 0.393 kW. No change in location, antenna, heights or ERP is being proposed from that currently authorized. This slight change of transmitter output power is due to the proposed use of a different type of transmission line.

All other engineering data regarding the radiated signal of this facility remains as filed previously with the Commission.
