

Exhibit 4
Application for Low Power FM Broadcast Station License
Berks Radio Association
Lenhartsville, Pennsylvania
Ch. 296D 107.1 MHz 100 Watts

Special Operating Restriction

The construction permit for WKTW-LP, BNPL-20131114AEW, contains the following special operating restriction:

“Prior to commencing program tests pursuant to this construction permit, the permittee shall cease operation of, and divest itself of all interest in, station WKTW (FM), Facility ID No. 176558, Longswamp Township, PA. A certification including the date that the station was cancelled or the date the assignment was consummated shall be included as an attachment to the Form 319 application for license to cover this construction permit.”

On December 1, 2017, the applicant, Berks Radio Association (“Berks”) sent a letter to the Commission by United States Postal Service Priority Mail, notifying the Commission of its discontinuance of operation of WKTW (FM) at Longswamp Township, PA. The correspondence also requested the cancellation of license for WKTW (FM). The authorization for WKTW (FM) was included in the correspondence pursuant to §73.1750. This correspondence was delivered to the Commission on December 5, 2017. The correspondence, the mail receipt, and the postal tracking information for this correspondence have been incorporated into this exhibit.

Therefore, by divesting itself of all interest in station WKTW (FM) by discontinuing the operation of WKTW (FM) and returning the license to the Commission for cancellation, Berks now certifies that we have complied with the terms of the special operating restriction. In accordance with §73.860(d), Berks will not commence operation of WKTW-LP until the Commission has cancelled the license for WKTW (FM) and granted the license for WKTW-LP.

Re: WKTW, Longswamp Township, Pennsylvania
Discontinuance of Operation and License Cancellation Request

Dear Ms. Dortch:

Berks Radio Association is submitting herewith, an original and four copies, of a letter requesting the cancellation of the broadcast license for WKTW, a Noncommercial Educational FM Broadcast Station at Longswamp Township, Pennsylvania.

No fee is required for submitting this letter inasmuch as the applicant is a non-profit entity and the correspondence concerns a noncommercial educational FM station.

Please address any questions to the undersigned concerning the application.

Respectfully submitted,

A handwritten signature in cursive script, reading "Scott D. Fowler".

Scott D. Fowler

DISCONTINUANCE OF OPERATION

Pursuant to the Commission's Rule §73.1750, Berks Radio Association ("Berks") is notifying the Commission of its intention to permanently discontinue the operation of station WKTW at Longswamp Township. The licensee requests cancellation of the license for WKTW for the reason stated in this letter. For expediency, per Rule §73.1750, the station license is being surrendered with this letter.

Berks is the permittee of a construction permit for a new Low Power FM Broadcast (LPFM) station, call sign WKTW-LP, at Lenhartsville, PA (BNPL-20131114AEW, Facility ID 196565) and intends to file a license to cover shortly. The construction permit expires on December 9, 2017. At the time of application for construction permit for WKTW-LP, Berks agreed to divest its interest in non-commercial educational Station WKTW (FM) if a construction permit for the LPFM station was granted:

"Berks Radio Association ("Berks") is the licensee of non-commercial educational FM station WKTW at Longswamp Township, PA (Facility ID 176458). Berks hereby agrees that it will divest its interest in WKTW pursuant to §73.860(d) of the Commission's Rules prior to the Commencement of operation of the proposed LPFM station."

Thus, there is a restriction for permit BNPL-20131114AEW as follows:

“Prior to commencing program tests pursuant to this construction permit, the permittee shall cease operation of, and divest itself of all interest in, station WKTW (FM), Facility ID No. 176558, Longswamp Township, PA. A certification including the date that the station was cancelled or the date the assignment was consummated shall be included as an attachment to the Form 319 application for license to cover this construction permit.”

Therefore, Berks is complying with its pledge and with Rule 73.860(d) by discontinuing the operation of station WKTW (FM) and divesting itself of WKTW (FM) by forwarding the station license to the Commission for cancellation. Berks requests prompt cancellation so that a license to cover for WKTW-LP may be filed prior to the expiration of the construction permit for WKTW-LP.

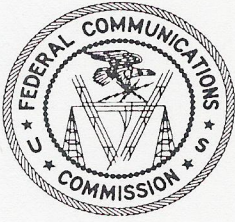

Respectfully submitted,

A handwritten signature in cursive script that reads "Scott D. Fowler".

License File Number: BLED-20101227AAH

Grant Date: **OCT 28 2011**

This license expires 3:00 a.m.
local time, August 01, 2014.

This license covers permit no.: BNPED-20071019ASU

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: BERKS RADIO ASSOCIATION

Station Location: PA-LONGSWAMP TOWNSHIP

Frequency (MHz): 91.3

Channel: 217

Class: A

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: .0080 kW

Antenna type: Directional

Description: SCA SLANT CL-FM YAGI

Antenna Coordinates: North Latitude: 40 deg 28 min 57 sec

West Longitude: 75 deg 37 min 50 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	.0220	.0220
Height of radiation center above ground (Meters):	20	20
Height of radiation center above mean sea level (Meters):	249	249
Height of radiation center above average terrain (Meters):	73	73

Antenna structure registration number: Not Required

Overall height of antenna structure above ground: 20 Meters

Obstruction marking and lighting specifications for antenna structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radio frequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 2 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

0.022 kilowatts.

Principal minima and their associated field strength limits:

20 degrees True: 0.00073 kilowatts
