Re: WSJP

Dear Donald J. Baad:

Thank you very much for the copy of your FCC application sent to us in accordance with the Puerto Rico Coordination zone agreements. We have considered the technical aspects of your application and find that your stations at address at Aguadilla, PR direct line-of-sight to the telescope. Hence, we request your cooperation in suppressing any out-of-band emission that could cause interference to our passive use of the spectrum in the Radio Astronomy bands at the Observatory.

We have no objection to your license application.

Thanking you for your cooperation,

Angel M. Vázquez
Spectrum Manager
