

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
CLEAR CHANNEL BROADCASTING LICENSES, INC.

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses Inc. ("CCBL"), a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). CCBL proposes to acquire the facilities of WMRZ(FM), Dawson, Georgia. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales:¹

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations Studied and Associated Arbitron Metro² Information

Calls	Fac ID	Band	Community	County	State	Geographic Arbitron Market	Declared Arbitron Market
WJIZ	6616	FM	Albany	Dougherty	GA	Non- Metro	Albany, GA
WJYZ	6617	AM	Albany	Dougherty	GA	Non- Metro	Albany, GA
WOBB	74182	FM	Tifton	Tift	GA	Albany, GA	Albany, GA
WRAK	52402	FM	Bainbridge	Decatur	GA	Albany, GA	Albany, GA
WMRZ	88542	FM	Dawson	Terrell	GA	Non- Metro	Albany, GA ³

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro Market, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.⁴

CCC does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal community contour of WMRZ(FM) as proposed, or which is located in the same Arbitron Metro⁵ as WMRZ(FM). The community of license of WMRZ(FM) is not located within the Albany, GA Arbitron Metro, but it is anticipated WMRZ(FM) will be reported by BIA as being "Home" to that Metro. Contour overlap of the station to be modified, as depicted in Figure 1, also occurs with commonly-owned stations whose communities of license are located in the Albany, GA Arbitron Metro market, and a commonly owned station whose community of license is located outside any Arbitron Metro market.

Arbitron Market Study

¹ None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

² Arbitron data presented herein is obtained from BIA's "Media Access Pro."

³ WMRZ is not located in an Arbitron County; however, it is assumed that the station will be Declared home to the Albany, GA Arbitron Metro.

⁴ See 47 C.F.R. § 73.3555(a).

⁵ A station is considered to be "located in an Arbitron Metro" if the station's community of license is located within the boundaries of that Metro, or, the station is listed as "Home" to that Metro by BIA.

Assuming that WMRZ(FM) will be reported by BIA as being "Home" to the Albany, GA Arbitron Metro, this proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by Table 2 below:

Table 2 - Stations Considered to be in the
Albany, GA Arbitron Metro⁶

Count	Calls	Fac ID	Band	Owner	Status ⁷	Community	County
1	WSRA	37451	AM	Agape Life Ministries Inc	b	Albany	Dougherty

⁶ Source: BIA.

⁷ Status: "a" -- the station is reported by BIA as "Home" to this Arbitron Metro; "g" -- the station's community of license is located within the geographic boundaries of this Arbitron Metro; "b" -- the station is both listed by BIA as "Home" to this Arbitron Metro, and its community of license is located in this Arbitron Metro.

Interim Contour-Overlap Analysis

Because the proposed principal community contour of the station to be modified intersects the principal community contour of a station under common ownership or attribution whose community of license is located outside any Arbitron Metro, an interim contour-overlap analysis is also set forth in this statement.

Interim Contour-Based Radio Markets

A "radio market" under the interim contour-overlap method is the area encompassed by the mutually overlapping principal community contours of the stations under common-ownership or attribution. Here, such mutually overlapping contours form one "radio market" for interim contour-overlap analysis under the Commission's rules.

The "radio market" is defined by the mutually overlapping principal community contours of WMRZ (FM)-App, WRAC (FM), WOBB (FM), WJIZ (FM) and WJYZ (AM). The predicted principal community contours of these stations (1 AM / 4 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 1*. *Figure 2* is the tabulation of some of the radio stations identified in the contour-overlap "radio market."

Count of Stations in Defined Markets

The number of radio stations in a contour-overlap "radio market" is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market, plus the subject commonly owned or attributable stations, excluding any stations whose transmitter sites are further than 92 kilometers from the perimeter of mutual overlap, and excluding any commonly owned or attributable stations that do not serve to define the market.

In the interim contour-overlap "radio market" studied herein, there are at least 33 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 2* is the tabulation of some of the radio stations identified in the contour-overlap "radio market".

Only known licensed, operating radio stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 45 degrees of azimuth.

Conclusions

In the Arbitron Metro Market studied herein, there are at least 18 radio stations, including the subject commonly-owned 1-AM / 4-FM stations, which are home to the Albany, GA Metro. This proposal does not affect the existing number of commonly-owned stations in the subject Arbitron Metro.

In the interim contour-overlap "radio market" studied herein, there are at least 33 stations, including the commonly-owned 1-AM / 4-FM stations.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Troy G. Langham
FCC Engineering Supervisor
September 19, 2005
