

EXHIBIT 13

Item 7 requires the applicant to set forth the Form 301, 314, or 315 application by which the Commission approved the qualifications of the individual or entity with a pre-existing interest in the licensee that is now acquiring control of the licensee as a result of the grant of this application.

This application requests Commission approval only for a restructuring related to certain subsidiaries of Radio One, Inc. ("ROI"), the party that ultimately controls the current and proposed licensee entities. This application does not request approval for any change in the ownership of ROI itself or the ultimate control of the licensee. Other than the new wholly owned or controlled entities identified in Exhibit 10, this application does not introduce any new parties at the ultimate parent level or any subsidiary level.

Since this application does not request approval for any change in the ownership of ROI, the ownership of which has been passed upon repeatedly in Commission long-form applications, including applications for each of the stations listed in this application, no further information is necessary in response to Item 7.
