Grants Pass, OR. 97528

October 09, 2009,

In evaluating the proposed digital flash cut for K47GI FID 5011, an outgoing interference study was executed on the proposed design in the attached application using the OET-69 Longley Rice methodology. It was discovered there was no interference found on Channel 47.

This table below is a list of all the stations considered in the outgoing interference study.

Call sign	Facility ID	ARN	City	Class
