

**ENGINEERING STATEMENT  
RADIO MULTIPLE OWNERSHIP ANALYSIS**

This radio multiple ownership analysis was prepared to consider common ownership of the stations tabulated below under the FCC "Interim" contour analysis method.\* The following radio stations to be considered under present or proposed common ownership or control are in an area not covered by an Arbitron Metro.

Call Sign / Facility ID	Location	Facilities
KMCO(FM) / 37777	McAlester, OK	Channel 267C1 100 kW 188 m
KTMC-FM / 67592	McAlester, OK	Channel 286A 1.6 kW 154 m
KESC(FM) / 83209	Wilburton, OK	Channel 279C1 100 kW 185 m
KTMC(AM) / 67593	McAlester, OK	1400 kHz 1 kW-U, ND1
KNED(AM) / 37778	McAlester, OK	1150 kHz 1 kW-D, DAN

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since all of the stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), an ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

Radio Market

The "radio market" applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. There is one "radio market" defined by the stations tabulated above. The table below lists the defined market:

---

\* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

Defined Radio Markets	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	KNED(AM), KTMC(AM)	KMCO(FM), KESC(FM), KTMC-FM

Count of Stations in Defined Market

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Market	Number of Stations in the Radio Market
Market 1	2 AM, 11 FM; 13 Total

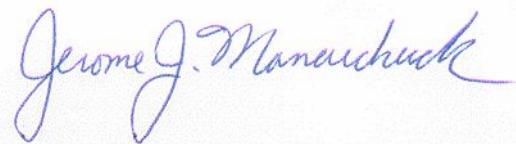

Figure 2 is a tabulation of the radio stations identified in the defined radio market. It is noted that there may be other stations that are considered in the market, however the stations tabulated are more than enough to show compliance with the FCC’s radio multiple ownership rules. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission’s AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30-second computer database for each of the FM stations using radials evenly-spaced every 10 degrees of azimuth.

Page 3

Based on the above, it is concluded that the proposed combination of the stations to be owned will comply with Section 73.3555(a) of the FCC Rules.

TECHNICAL STATEMENT  
RADIO MULTIPLE OWNERSHIP ANALYSIS

Tabulation of Stations Defined in Radio Market 1

<u>Call Sign</u>	<u>Community of License</u>	<u>State</u>	<u>Frequency</u>
KNED	McAlester	OK	1150 kHz
KTMC	McAlester	OK	1400 kHz
KTKL	Stigler	OK	88.5 MHz
KLRB	Stuart	OK	89.3 MHz
KQCV	Shawnee	OK	95.1 MHz
KMMY	Muskogee	OK	97.1 MHz
KZBB	Poteau	OK	97.9 MHz
KMAG	Fort Smith	AR	99.1 MHz
KTCS-FM	Fort Smith	AR	99.9 MHz
KMCO	McAlester	OK	101.3 MHz
KTNT	Eufaula	OK	102.5 MHz
KESC	Wilburton	OK	103.7 MHz
KTMC-FM	McAlester	OK	105.1 MHz
