

To whom it may concern:

Neither the WBGG(AM) daytime directional array nor the WBGG(AM) nighttime directional antenna array were adversely affected by the installation of the WLTJ(FM) transmission system authorized in FCC Construction Permit BPH-20050218ABW.

Accordingly, a measurement program on WBGG(AM) is not necessary in connection with the Licensing of WLTJ(FM).

Sincerely,

October 31, 2006

To Whom It May Concern:

Neither the WAMO daytime directional array nor the WAMO nighttime directional antenna array were adversely affected by the installation of the WLTJ main antenna system authorized in FCC Construction Permit BPH-20050218ABW or the WLTJ auxiliary antenna system authorized in FCC Construction Permit BXPB-20050505AAH. Accordingly, a measurement program on WAMO is not necessary in connection with the Licensing of WLTJ (FM.)

Sincerely,

Robert Sharkey, CBRE
Chief Engineer
