

RADIO MARKET ANALYSIS
CMP KC LICENSING, LLC
KMJK RADIO STATION
NORTH KANSAS CITY, MISSOURI
September 2011

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of CMP KC Licensing, LLC (“CMP KC”)¹, proposed assignee of KMJK, Channel 297C1, North Kansas City, Missouri. CMP KC is also the licensee of KCHZ, Channel 239C1, Ottawa, Kansas. CMI also has an attributable interest in CMP Houston-KC, LLC, the licensee of KCMO, 710 kHz, Kansas City, Kansas; KCMO-FM, Channel 235C0, Shawnee, Missouri; KCJK, Channel 286C1, Garden City, Missouri; and KCFX, Channel 266C1, Harrisonville, Missouri.²

2. KJMK, KCMO, KCMO-FM, KCJK and KCFX are each licensed to a community in a metro county in the Kansas City, Kansas Arbitron market. KCHZ is not a metro station in the Kansas City market, but is considered “home” to that market. Therefore, this review will verify compliance of commonly owned stations in both rated and non-rated markets.

KANSAS CITY, MISSOURI-KANSAS ARBITRON/BIA MARKET REVIEW

3. As shown on Exhibit #1, there are forty-five AM and FM (commercial and non-commercial) stations in the Kansas City, Missouri/Kansas Arbitron Market (Market #32). CMI would be in control of five FM stations and one AM station in the market. The number of stations depicted falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the

1) An indirect subsidiary of Cumulus Media, Inc. (“CMI”).

2) CMI has attributable interests in the licensee of stations KDVB, Channel 245A, Effingham, Kansas (with a permit to upgrade to Channel 245C2); KTOP-FM, Channel 275C2, St. Marys, Kansas; KMAJ-FM, Channel 299C1, Carbondale, Kansas; and KWIC, Channel 257C3; KDVV, Channel 262C0 (with a permit to upgrade to Channel 262C); KMAJ, 1440 kilohertz; and KTOP, 1490 kilohertz, Topeka, Kansas. The KMJK facility does not have contour overlap with any of these facilities; therefore, they are not considered further.

Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. Therefore, CMI is in compliance in the rated Kansas City, Kansas/Missouri market.

REVISED CONTOUR OVERLAP ANALYSIS

4. Attached as Exhibit #2 is a map depicting the city grade contours of the commonly owned facilities. The city grade contour of KMJM overlaps with the city grade contour of KCHZ and the remainder of the Kansas City area CMI attributable stations. Based on the area of overlap of these facilities, a single distinct overlap market is created.

5. A study has been conducted to determine if ownership of these facilities complies with §73.3555 of the Commission's rules. The city grade contour of KJMK, KCHZ, and KCMO will be used to define the market boundary. We will determine the number of contributing stations which have sites within or provide city grade service to the Radio Market boundary. To this total, we will then add the subject stations in the respective market to demonstrate compliance with the rules. Only those stations with transmitter sites within 92.0 kilometers will be considered as contributors to the market. No other stations in which CMI has an interest will be considered, unless it is a subject station in the market under review.

6. Exhibit #3A (AM stations) and #3B (FM stations) are maps depicting of the stations (commercial and non-commercial) providing service to the Radio Market boundary. Thirty-nine stations are depicted. Exhibit #4 is a tabulation of the stations in the Radio Market. A total of forty-six stations are shown, including the eight subject stations.³ The number of stations in the

3) There are numerous other stations in the market. They were not considered, however, as there were a sufficient number of stations to allow for common ownership of the stations under study.

Radio Market falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. As such, CMI is in compliance in the non-rated Radio Market.

7. Based on the compliance shown in both rated and non-rated markets, the proposed transfer is in compliance with §73.3555 of the rules, with regard to the above referenced stations.

8. The foregoing technical statement was prepared on behalf of CMP KC Licensing, LLC by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. Data regarding the relevant Arbitron market was determined using the BIA MEDIA Access Pro Version 4.6. We assume no liability for errors or omissions in those databases which may be adverse to the information contained herein.
