## KVCS Antenna Installation Engineering Certification

The directional antenna for construction permit number BMPED-20100308ACA was installed under my supervision by experienced riggers with the assistance of a licensed surveyor. This was performed in close cooperation with the antenna manufacturer and according to published instructions.

I am employed by the FM construction permit holder and have operated, maintained, installed and supervised the installation of numerous directional FM, direction AM, directional TV and microwave antennas over more than 20 years. I also hold the following FCC issued licenses:

GROL	PG00017715
GMDSS	DO00005796
GMDSS	DM00000503
Amateur	Extra KA9DOL

Sincerely,

Andrew C. Eliason
