TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K47LR, Channel 47, Elk City, Oklahoma. OCT holds an outstanding permit for K47LR-D (BMPD TT-20091221ADB), authorizing a reduction in power and a change in the antenna system to be used. This instant application seeks a license to cover the outstanding permit for K47LR-D. Attached as Exhibit A is a calculation of the transmitter output power for the K47LR-D transmitter.

There are no special operating conditions or restriction on the K47LR-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K47LR-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K47LR-D is operating pursuant to the Commission's rules.
