

Section IV, Question 1

Established Local Applicant Exhibit

The University of Montana (“UM”), located at Missoula, Montana, was founded in 1893. It is a public unit of the State of Montana’s Montana University System. UM qualifies as an established local applicant under Section 73.7000 of the Commission’s Rules because it is applying for construction permits for two new FM stations at Libby and Polson, Montana. As part of the Montana University System, it is therefore “a governmental entity within its area of jurisdiction”.
