## **COMPREHENSIVE TECHNICAL EXHIBIT APPLICATION FOR LPTV CONSTRUCTION PERMIT**

**MINOR CHANGE TO LICENSED FACILITY**  
**K63CM, FCC ID 27587**  
**FCC FILE NUMBER BLTTL-19920420IQ**  
**HONEY LAKE COMMUNITY TV CORP.**

**MINOR CHANGE TO LICENSED FACILITY.** The within application is filed as a minor change to licensed facility, seeking a change of effective radiated power. Additionally, a change of channel is requested pursuant to a request for displacement relief, following.

**DISPLACEMENT RELIEF.** The within application seeks displacement relief from out of core channel 63 to in-core channel 31.

**INTERFERENCE ANALYSIS:** The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application. The stations which exhibit contour overlap or short spacing and thus must be studied are:

| <b>FCC FILE NUMBER</b> | <b>CALLSIGN, DETAIL</b>   |
|------------------------|---------------------------|
| BLCT20021125AAK        | KMAXTV, Sacramento, CA    |
| BLCT19891026KE         | KDKF, Klamath Falls, OR   |
| BLTT19880217IL         | K31BM, Silver Springs, NV |

Using a software program which matches the FCC's OET69 analysis program and run on a SUN computer, interference population loss from the within proposal to the listed facilities was shown to be less than 0.5%. Accordingly, waiver of §§74.705 and 74.707 as appropriate is requested.
