

**Technical Statement**  
**Application for Construction Permit**  
**W219DQ Dillyville , NY**  
**December, 2009**

This technical statement is prepared by Charles Williamson, president of Digital Radio Broadcasting, Inc., licensee of W219DQ at Dillyville, NY. This application proposes four changes; (1) a change in transmitter site, (2) a change in channel from 219 to 220, (3) a change in transmit antenna and (4) a change in power.

The proposed facility is an existing mountaintop communications tower site. The tower is registered with ASR# 1005521. The allocation study shows one overlap condition to second adjacent WXRK at New York, NY. A waiver request is included with this application, along with a contour map showing the interfering contour and how no population is affected.
