**ENVIRONMENTAL AND RADIO FREQUENCY EXPOSURE STATEMENT**  
**MEREDITH CORPORATION**  
**MODIFICATION OF BLTTL20061205ABL**  
**LOW POWER TELEVISION STATION K34HK**  
**LONGVIEW, WASHINGTON**  
**CH 34, 10.45 KW-D, 37.8 MTR AGL**

Grant of this application would not be considered a major environmental action. None of the conditions specified in Section 1.1307(A) of the rules are believed to apply.

The K34HK facility, operating on channel 34, was evaluated in terms of potential radio frequency (RF) energy exposure at ground level to workers and the general public. The radiation center for the antenna is located 37.8 meters above ground level. An average power level of 5.18 kW ERP was utilized in the calculations. The calculations were performed in accordance to OET Bulletin No. 65 and indicate that the proposed operation of K34HK would contribute 1.8% of the applicable public MPE limit at a calculation height of 2 meters above ground. The proposed operation is therefore categorically excluded from having to consider other facilities at the site.

In the event that workers or other authorized personnel climb the tower, appropriate measures will be taken to assure worker safety with respect to radio frequency radiation exposure.
