

REQUEST FOR ENGINEERING STA

Genesee Media Corporation (“Applicant”) [FRN: 0021256607] and licensee of AM broadcast station WRSB, Brockport, NY [Facility ID: 15767] requests an Engineering STA to perform inverse field measurements as required by broadcast construction permit file number BP-20191028AAL (“CP”).

Applicant is seeking temporary authority to perform inverse distance field measurements to satisfy special operating condition number 3 in the CP. The facility’s transmitter will be tuned to 1600 kHz, power level adjusted to 300w, and the antenna system will be converted to non-directional as specified in the CP. All measurements will be made during daylight hours.

It is anticipated that the requested temporary authority will be in use for a maximum of 48 hours wherein a request to commence program tests will be filed. At that time, the transmitter and antenna will be attended by an operator/engineer when in operation. The transmitter will be turned off should any person enter the area wherein the RF power density exceeds the controlled or uncontrolled exposure limits.

Applicant will operate the facility within the parameters of the CP. The proposed operation will not result in interference to any other broadcast station.

I am the principal owner of Genesee Media Corporation and certify that no party to the application is subject to a denial of federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 853a. For the definition of a “party” for these purposes, see 47 C.F.R. Section 1.2003(b).

I certify that the statements made in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Executed on April 10, 2023.
