RE: WLMN antenna installation

I certify that the WLMN FM directional antenna was assembled, mounted, and tested under my supervision, according to plans and descriptions provided by the consulting engineer, Wayne Reese, and the antenna manufacturer, Dielectric Communications, and pursuant to Construction Permit BNPED-20071019ASC.

I have been active in broadcast engineering for over 20 years. I am certified as a Radio Broadcast Engineer (#3047) by the Society of Broadcast Engineers, Indianapolis, Indiana. (Re-certified March, 1996).

I hold a Federal Communications Commission lifetime General Radiotelephone license, issued September 1990.

Interlochen Center for the Arts employs me as Chief Engineer, radio, and I am the designated Chief Operator of radio stations WIAA-FM, WIZY-FM, WICA-FM, WIAB-FM AND WLMN-FM.

Jack Connors
Chief Engineer
