Dear Licensee:

This is with respect to the above-referenced Class A television stations licensed to commonly-owned KM LPTV of Milwaukee, LLC, KM LPTV of Chicago-28, LLC and KM LPTV of Atlanta, LLC ("KM").

Class A television stations are accorded primary spectrum use status pursuant to the Community Broadcasters Protection Act of 1999 ("CBPA").¹ To qualify for Class A status, the CBPA provides that, during the 90 days preceding enactment of the statute, a low power television station must have: (1) broadcast a minimum of 18 hours per day; (2) broadcast an average of at least three hours per week of programming produced within the market area served by the station; and (3) been in compliance with the Commission's rules for low power television stations.² Class A licensees must continue to meet these eligibility criteria in order to retain Class A status.³

In addition, beginning on the date of its application for a Class A license and thereafter, the CBPA requires that a station must be "in compliance with the Commission's operating rules for full-power television stations."⁴ In implementing the CBPA and establishing the Class A television service, the Commission applied to Class A licensees all Part 73 regulations except for those that could not apply for technical or other reasons. Among the Part 73 requirements that apply to Class A licensees are the Commission's main studio requirements.⁵ In order to qualify as a main studio, the designated location must house production equipment and be staffed by at least two full-time personnel in order to meet the needs and interests of the residents of the station's community of license.⁶ A Class A licensee must also

² 47 U.S.C. § 336(f)(2)(A)(i).

With the exception of commonly controlled Class A stations whose contours are physically contiguous to each other, a Class A television station's main studio must be located within the station's predicted Grade B contour. See 47 C.F.R. § 73.1125(c).

⁶ See *Local One Texas, Ltd.*, 20 FCC Rcd 13251, nn. 4 and 5 (Med. Bur. 2005), citing *Jones Eastern of the Outerbanks, Inc.*, 7 FCC Rcd 6800 (1992), *Clarification of the Main Studio and Program Origination Rules for Radio and Television Broadcast Stations*, 3 FCC Rcd 5024, 5026 (1988), and Instruction II.F to FCC Form 302-CA.

maintain a local public inspection file at its main studio location which includes, *inter alia*, the station's authorization and copies of applications filed with the Commission and related materials; quarterly-based issue/programs lists; quarterly-filed FCC Form 398 (Children's Television Programming Report); letters and email from the public; and political and EEO files.⁷ In addition, a Class A licensee must place in its public file documentation sufficient to demonstrate that it is continuing to meet the on-going statutory eligibility requirement that it broadcast a minimum of 18 hours per day and an average of at least three hours per week of locally produced programming each quarter.⁸

The Licensee's chosen address of record for the three stations is the Skokie, Illinois address shown above.⁹ The staff reviewed the BIA Kelsey Inc. Media Access Pro Television Database (BIA) as of February 21, 2012, which showed that BIA lists the mailing address and "physical address" of the Milwaukee and Atlanta stations as the Skokie, Illinois address. It also identified Kevin Bae as the General Manager, Business Manager, News Director, Finance Manager, Sales Manager, Program Manager, Promotions Manager and Traffic Manager of both stations. While BIA lists 5235 N. Kedzie Avenue, Chicago, Illinois 60625 as the mailing and "physical address" for the Chicago station, that address appears to be the Kedzie Avenue Branch of Foster Bank.¹⁰

In order to determine these stations' eligibility for Class A television status, KM shall provide the following information for each station:

- 1) The street address and telephone number of each station's main studio, and the hours the designated main studio location is regularly open to the public.
- 2) A description of the production equipment maintained at the designated main studio location.
- 3) The names of the persons employed at the designated main studio location as station personnel since January 1, 2010, and their typical daily work schedule.
- 4) The street address of the location of the station's public inspection file; the hours during which the file is available for public inspection; and the name of the person with responsibility for providing access to the public inspection file.
- 5) For all four quarters of 2010 and 2011, a copy of the station's quarterly issues/programs list with a statement giving the dates on which the lists were prepared and placed in the public inspection file.
- 6) A copy of the required public inspection file documentation demonstrating that the station broadcast a minimum of 18 hours of programming per day and an average of at least three hours per week of locally produced programming for all four quarters of 2010 and 2011, with a statement giving the dates on which the documentation was prepared and placed in the public inspection file.

- (6) As often as may be reasonably required, permit us to inspect the property proving the loss or damage and examine your books and records.
Also permit us to take samples of damaged and undamaged property for inspection, testing and analysis, and permit us to make copies from your books and records.

- (7) Send us a signed, sworn proof of loss containing the information we request to investigate the claim. You must do this within 60 days after our request. We will supply you with the necessary forms.
- (8) Cooperate with us in the investigation or settlement of the claim.
- b. We may examine any insured under oath, while not in the presence of any other insured and at such times as may be reasonably required, about any matter relating to this insurance or the claim, including an insured's books and records. In the event of an examination, an insured's answers must be signed.

Please refer to the policy for exact wording and context.

One or more of the policy loss conditions may not have been met in the above referenced claim. There may be issue with you notifying the police of the theft and other duties in the event of loss. These may not be the only policy conditions or exclusions that apply to this loss. On this basis, we will be handling our investigation of this claim under a full reservation of rights.

We are at this time reserving our rights under this policy. We shall proceed with our investigation of this claim and assessment of damages upon the understanding that in doing so, we do not waive any of our rights under the policy. Further, it should be understood that we do not expect you to waive any of your rights under the policy. In addition, these views are not intended in any way to be exhaustive or exclusive, and we expressly reserve all of our rights under the policy, including, but not limited to, the right to raise additional policy terms and conditions as defenses to coverage as appropriate. Our failure to cite other policy language at this time does not preclude us from raising other defenses in the future should the situation so warrant.

At the conclusion of our investigation, we will advise you of our findings and our position with respect to coverage.

If you should have any questions concerning this matter, please feel free to contact me.
