LEXINGTON, MISSOURI
October 2005

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Cumulus Licensing LLC (“Cumulus”), licensee of KMJK, Channel 297C, Lexington, Missouri. Cumulus also holds an outstanding permit to make changes in KMJK (BPH-20040406ACH). Cumulus herein proposes to modify the outstanding permit by relocating the facility and downgrading to Channel 297C1.

Cumulus is proposing to locate the antenna system for KMJK on a new tower. As such, the Federal Aviation Administration (“FAA”) was apprised of this proposal. Once the FAA issues its Determination of No Hazard, the tower will be registered with the Commission.

At the proposed site, Channel 297C1 does not meet the Commission’s minimum distance separation requirements to one other FM facility, therefore processing pursuant to §73.215 is requested (Exhibit A). All documentation used to certify the technical portion of Form 301 has been forwarded to the applicant and is available to the Commission upon request.
