To Whom it may concern:

I, James Aranda, a Registered Professional Land Surveyor in the State of Texas, do hereby state that on February 5, 2014, an on-the-ground survey and certain measurements were conducted under my direction and supervision at a tower location north of the City of Rio Grande City Texas at geographical (NAD 83) location; Latitude 26° 25' 42.2" N; Longitude 98° 49' 39.1" W to verify the azimuth to which the KXJT radio station (4) antennas are pointing, and, after careful evaluation of the field measurements and observations do hereby affirm and attest that the KXJT antennas are in fact pointing to a Geodetic Azimuth of 234.5 degrees.

  
James Aranda, RPLS, 4442
