

APPLICATION FOR STATION LICENSE
EAGLE III BROADCASTING, LLC
KKCO-DT TELEVISION STATION
CH 12 - 204-210 MHZ - 5.3 KW
GRAND JUNCTION, COLORADO
March 2003

TECHNICAL STATEMENT

This Technical Statement and attachments were prepared on behalf of Eagle III Broadcasting, LLC (“Eagle”), licensee of NTSC television station KKCO, Channel 11+, Grand Junction, Colorado and permittee of KKCO-DT, Channel 12, Grand Junction, Colorado. Eagle holds an outstanding construction permit for KKCO-DT (BMPCT-20020725AAU). This instant application seeks a license to cover this outstanding construction permit.

Construction of the KKCO-DT facilities has been completed and the station is operating pursuant to automatic program test authority. Attached as Exhibit A is a calculation of the transmitter output power for KKCO-DT. The KKCO-DT facilities have been constructed as authorized in the underlying permit. There was a lone condition placed on the permit, which stated the permittee would make a good faith effort to identify and notify health care facilities that would potentially be affected as a result of the operation of the authorized DTV facility. This review was undertaken and no impacted facilities were found. Based on the proposed operating channel of the KKCO-DT facilities, no impact was expected.
