

All of the attributable interests of proposed transferee Aurora Holding, LLC, and its principals were disclosed in the “long-form” applications identified in Exhibit 2 to this application inasmuch as Frank D. Osborn has voting control over Aurora Holding, LLC, and was proposed to have voting control over Aurora II, LLC, and Frank D. Washington, who has an attributable interest in Aurora Holding, LLC, was proposed to be a director of Aurora II, LLC.

Specifically, Aurora Holding, LLC, controls the following licensees and thus has attributable interests in the following stations:

Aurora of Bridgeport License Company, LLC

WICC(AM)	72345	Bridgeport, CT
WEBE(FM)	71389	Westport, CT

In addition, Frank D. Washington is the holder of:

- (1) a membership interest in World Television of Washington, LLC, licensee of KBCB(TV), Bellingham, Washington;
- (2) a 51.5 percent membership interest in Spartan-TV, LLC, licensee of WHTV(TV) in Jackson, Michigan; and
- (3) an attributable interest in Aurora of Bridgeport License Company, LLC; Aurora of Danbury License Company, LLC; and Aurora of Westchester License Company, LLC, which are the licensees of the stations set forth above.

The “Compliance with Ownership Rule” exhibit to the long form applications demonstrated that it would be permissible to have attributable interests in all of the above stations and the Crystal stations. That continues to be true.
