Re: Harney County Radio, LLC (Harney)
KBNH(AM), Burns, Oregon
Facility Identification Number: 62265
File Number: BP-20110223AAU

Dear Mr. Alpert:

This letter is in reference to the above-captioned minor change application filed by Harney to modify station KBNH(AM) by changing frequency 1230 to 1210 kHz, and the May 31, 2012, amendment to provide an updated environmental showing.

A preliminary review of the amended application reveals that the environmental showing is unacceptable. We recommend that Harney take one of the following courses of action: (1) file an amendment to remove the Form 620 showing from the application under Exhibit 19 and stand on the certification alone. Harney must answer YES to question #11 on FCC Form 301 only if the site has been found to be acceptable for use from an environmental viewpoint; or (2) file an amendment to remove the Form 620 showing from the application and replace it with a brief exhibit addressing each of the environmental factors. For more information about the environmental compliance, please see the Wireless Telecommunications Bureau environmental checklist at http://wireless.fcc.gov/siting/EA_checklist.pdf.

Further action on the subject application will be withheld for a period of 30 days from the date of this letter to allow time to file a curative amendment. Failure to amend within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568.

Sincerely,

Son Nguyen
