**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Cumulus Licensing LLC (“Cumulus”), licensee of radio station KIKN-FM, Channel 263C1, Salem, South Dakota. Cumulus holds an outstanding construction permit for KIKN-FM to invoke §73.215 protection and correct the geographic coordinates of the existing facility. No actual operating change was proposed (BPH-20061115ABA). Cumulus herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the KIKN-FM transmitter is attached as Exhibit A.

There are two operating conditions or restrictions listed on the KIKN-FM permit. The first condition requires Cumulus to reduce the power of KIKN-FM or cease operation, as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission’s guidelines. Cumulus will comply with this requirement. The second condition notes that the KIKN-FM permit was issued pursuant to §73.215 of the rules. Cumulus acknowledges this condition.

Based on the foregoing, it is believed that KIKN-FM is operating in compliance with the Commission’s rules and that all conditions have been met.
