

**MODIFICATION OF STATION LICENSE**  
**MONSTERMEDIA, LLC**  
**KLJZ (FM) RADIO STATION**  
**CH 226C1 - 93.1 MHZ - 100.0 KW**  
**YUMA, ARIZONA**  
**January 2015**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of MonsterMedia, LLC ("MonsterMedia"), licensee of radio station KLJZ, Channel 226C1, Yuma, Arizona. MonsterMedia is herein submitting an application to modify the license of KLJZ (BLH-20020712AAV) to reflect a correction of coordinates for the KLJZ tower. The licensed coordinates of KLJZ are North Latitude 32° 39' 06" and West Longitude 114° 39' 04". The corrected coordinates of KLJZ are North Latitude 32° 39' 06" and West Longitude 114° 39' 01" (rounded to the nearest second). As this correction of coordinates is three (3) seconds of longitude, this application qualifies to use FCC Form 302-FM to make this correction. No change to the licensed center of radiation or power is proposed.

Since no construction or physical modification of the transmitting facility has been undertaken, only a correction of the geographic coordinates is requested. A study with the FAA (2015-AWP-91-OE) to determine airspace clearance has begun. Once the expected FAA's Determination of No Hazard to Air Navigation is issued, Antenna Structure Registration 1232471, which is the tower in use by KLJZ, will be modified to bring the KLJZ license and the Antenna Structure Registration into agreement. No spacing shortage will be created to any full service or protected station or allocation by the correction of coordinates of KLJZ, as demonstrated in Exhibit C.

Based on the foregoing, it is believed that KLJZ is operating in compliance with the Commission's rules.
