Re: CC Licenses, LLC (CCL)  
As Debtor In Possession  
WENE(AM), Endicott, NY  
Facility Identification Number : 19625  
Special Temporary Authorization (STA)  
BESTA- 20180904ABQ

Dear Mr. Davis:

This is in reference to the request filed on September 4, 2018. CCL requests an extension of the STA granted on August 14, 2014, to continue operating with parameters at variance pending the grant of BMML-20180227ABL filed to update all operating parameters.<sup>1</sup> In support of the request, we note that the application remains under review by our staff at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

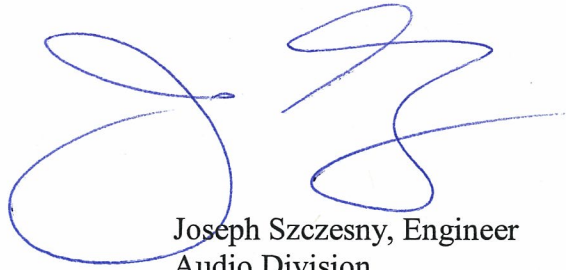

Accordingly, the request for extension of STA IS HEREBY GRANTED, and CCL may continue to operate with parameters at variance based upon the pending application. CCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

---

<sup>1</sup> WENE(AM) is licensed for operation on 1430 kHz with a power of 5 kW ND day and DA night.

This authority expires on **April 4, 2019**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke.

Joseph Szczesny, Engineer  
Audio Division
