ENGINEERING STATEMENT OF RICHARD C. POGSON, CSRE
Prepared for: Beacon Broadcasting, Inc.
Regarding: WEXC (FM) Minor Modification to Licensed Facilities

The Applicant, Beacon Broadcasting, Inc. proposes minor modification of existing License File Number BLH-20041012ABH. The proposed modification involves a change in antenna HAAT and Effective Radiated Power. WEXC (FM) is currently licensed at a HAAT of 100 meters with an ERP of 3.0 kW. The applicant proposes operation at the currently licensed location (ASRN# 1013110) with a HAAT of 119 meters and an ERP of 2.1 kW.

For the purpose of reference the original (Exhibit 24-Statement A, Figure 1 and Table 1) has been re-attached to this engineering statement. The above referenced Exhibit demonstrates compliance with 47 C.F.R. Section 73.207 and 47 C.F.R. Section 73.213(c)(1). The proposed power and height combination of a HAAT of 119 meters and ERP of 2.1 kW represent an equivalent to the facilities referenced in the original Exhibit 24 in that the reference distance is unaffected. Therefore the applicant's proposal does conform to the requirements of Section 73.213(c)(1).

Respectfully Submitted By,
Richard C. Pogson CSRE
