

**MINOR CHANGE APPLICATION**  
**CUMULUS LICENSING LLC**  
**KDVB FM RADIO STATION**  
**CH 245C2 - 96.9 MHZ - 8.1 KW**  
**EFFINGHAM, KANSAS**  
**January 2013**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of KDVB, Channel 245A, Effingham, Kansas. Cumulus herein proposes to upgrade KDVB to Channel 245C2 at Effingham, Kansas and relocate the station to an alternate site.<sup>1</sup>

Cumulus is proposing to implement this change at a new tower site. As such, the Federal Aviation Administration ("FAA") was apprised of this proposal and has issued a Determination of No Hazard. The proposed tower has been registered with the Commission and assigned Antenna Structure Registration Number 1259127.

From the proposed implementation site, Channel 245C2 meets the Commission's minimum distance separation requirements, as indicated on Exhibit A, and will provide a 70 dBu signal to Effingham, as indicated on Exhibit B. The proposed Channel 245C2 site is also suitable for tower construction since the FAA has issued a Determination of No Hazard. Therefore, this proposal meets the Commission's allocation criteria.

---

1) The requested KDVB facilities are the same as those previously authorized in BPH-20080321ACL.

All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to Cumulus and is available to the Commission upon request.<sup>2</sup>

---

2) The undersigned has only reviewed the radio frequency limit portion of the environmental analysis. All data regarding stations was extracted from the Commission's CDBS database on the date of this application. We assume no liability for errors or omissions in that database.
