

Exhibit 8 - Statement A  
**COMPLIANCE WITH SPECIAL OPERATING CONDITIONS**  
prepared for  
**WSBT, Inc.**  
WSBT-DT South Bend, IN  
Facility ID: 73983  
Ch. 30 229 kW 332.4 m

WSBT, Inc. (“*WSBT*”) is the licensee of television station WSBT-TV, South Bend, Indiana. (FCC File No. BLCT-19880523KH). *WSBT* has completed construction of a new DTV facility authorized for WSBT-DT in the construction permit (“CP”) FCC File No. BMPCDT-20050613AFU and has commenced program tests in accordance with Section 73.1620(a)(1) of the FCC Rules.

The WSBT-DT CP contains one *Special Operating Condition* that requires notification of health care facilities prior to the commencement of operation. Based on discussions with the Commission's staff, *WSBT* understood this requirement to apply only to medical facilities in areas that will first receive digital service as a result of the new antenna, since medical facilities within the area previously receiving digital service had already been notified. Based on information provided by Mr. Eugene Hale, Chief Engineer for WSBT-TV, there are no medical facilities in the area that will receive new digital service on Channel 30 from WSBT.

**Exhibit 7-Table 1**, attached, provides information regarding the antenna, transmission line, and transmitter combiner specifications employed in the determination of the transmitter power output.
