Subject: new frequency

Message: Please go back to your old frequency. I can't listen to KRTH anymore. They're at 101.1 FM out of Los Angeles. Don't get me wrong, I'm a believer but I sure miss listening to one of my favorite radio stations.

Dear Jeremy,  
Thanks for the prompt reply!

My address is:

1452 Village Meadows Drive  
Lompoc, California  
93436  
805-740-1393

I enjoy listening to KRTH in the car and at home. My son and I listen to Christian Music here in Lompoc on Radiou which is at 91.5FM. Our family moved to Lompoc from Santa Barbara where your transmitter is approximately located. Being from Santa Barbara, and knowing how the culture has changed there in the past 30 years, I would propose that what Santa Barbara really needs is a metal rock Christian station to appeal to and capture the attention of the young population. The Christian leaders of tomorrow are the kids who listen to rock on the radio today.

Thank-you very much for not only responding to my request but also for taking action.

God Bless!

Maurice Leyva
