### **Purpose of this Application**

The transmit antenna is in need of replacement and cannot be duplicated exactly as currently licensed. However, a replacement that is near identical to the licensed antenna has been located. The purpose of this application is to update the antenna (Section III-A, Item 10).

Also, in order to maintain the grandfathered status of the facility, and not extend beyond the current licensed contour, the effective radiated power (Section III-A, Item 9) has been reduced to 60w.
