Dear Applicant:

We are currently reviewing your above-referenced application. Our review reveals that the above referenced proposed minor modification construction permit was filed to modify your Flash Cut construction permit BDFCDTA-20060331AKF. The filing of a modification construction permit does not extend the expiration date of the underlying construction permit.

Our records show that the Flash Cut construction permit was not licensed and that the permit expired March 22, 2010. Since the Flash Cut construction permit has expired it can no longer be modified; therefore, your above referenced minor modification application IS HEREBY DISMISSED.

Sincerely
