Re: Notice of Emergency Antenna Operation  
Station KCMT  
FCC Facility Identification #2746  
Green Valley, Arizona

Gentlemen:

On behalf of Arizona Lotus Corp., an Arizona corporation and licensee of the above station ("Lotus"), I notify the Commission under 47 C.F.R. 73.1680 that the antenna from which the station broadcasts was severely damaged yesterday afternoon. It appears one of the guy anchors failed, which resulted in the top half the tower crashing to the ground. Since 6:00 p.m. last night, the station has been transmitting using an emergency antenna, Scala Model CL-FMV, from a location on Tucson Mountain (32° 14' 55" N, 111° 06' 57" W), the closest facility immediately available to Lotus, with an effective radiated power of 0.556 kW. We expect to file a Request for Special Temporary Authority as soon as Lotus finalizes its plans for operations during repairs.

Please contact me if you have any questions or concerns. Thank you for your attention to this matter.

Very truly yours,

  
Eileen Breslin
