

APPLICATION FOR STATION LICENSE
CUMULUS LICENSING LLC
KKCT (FM) RADIO STATION
CH 248C1 - 97.5 MHZ - 100.0 KW
BISMARCK, NORTH DAKOTA
May 2006

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of radio station KKCT, Channel 248C1, Bismarck, North Dakota. Cumulus has an outstanding permit to correct the coordinates of KKCT (BPH-20060329AMJ). Cumulus herein submits a license application to cover the outstanding permit. Cumulus is operating KKCT under automatic program test authority. A calculation of the transmitter power output of the KKCT transmitter is attached as Exhibit A.

There is one operating condition/restriction on the KKCT permit.¹ The condition states that Cumulus will reduce the power of KKCT, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Cumulus will comply with this requirement. Based on the foregoing, it is believed that KKCT is operating in compliance with the Commission's rules and that all conditions have been met.

1) KKCT shares an antenna with KACL, Channel 254C1, Bismarck, North Dakota. Since there are no actual changes to the KKCT facilities and no conditions were noted on the construction permit, the shared antenna is not addressed in this instant application.
