

**Compliance with International Requirements**

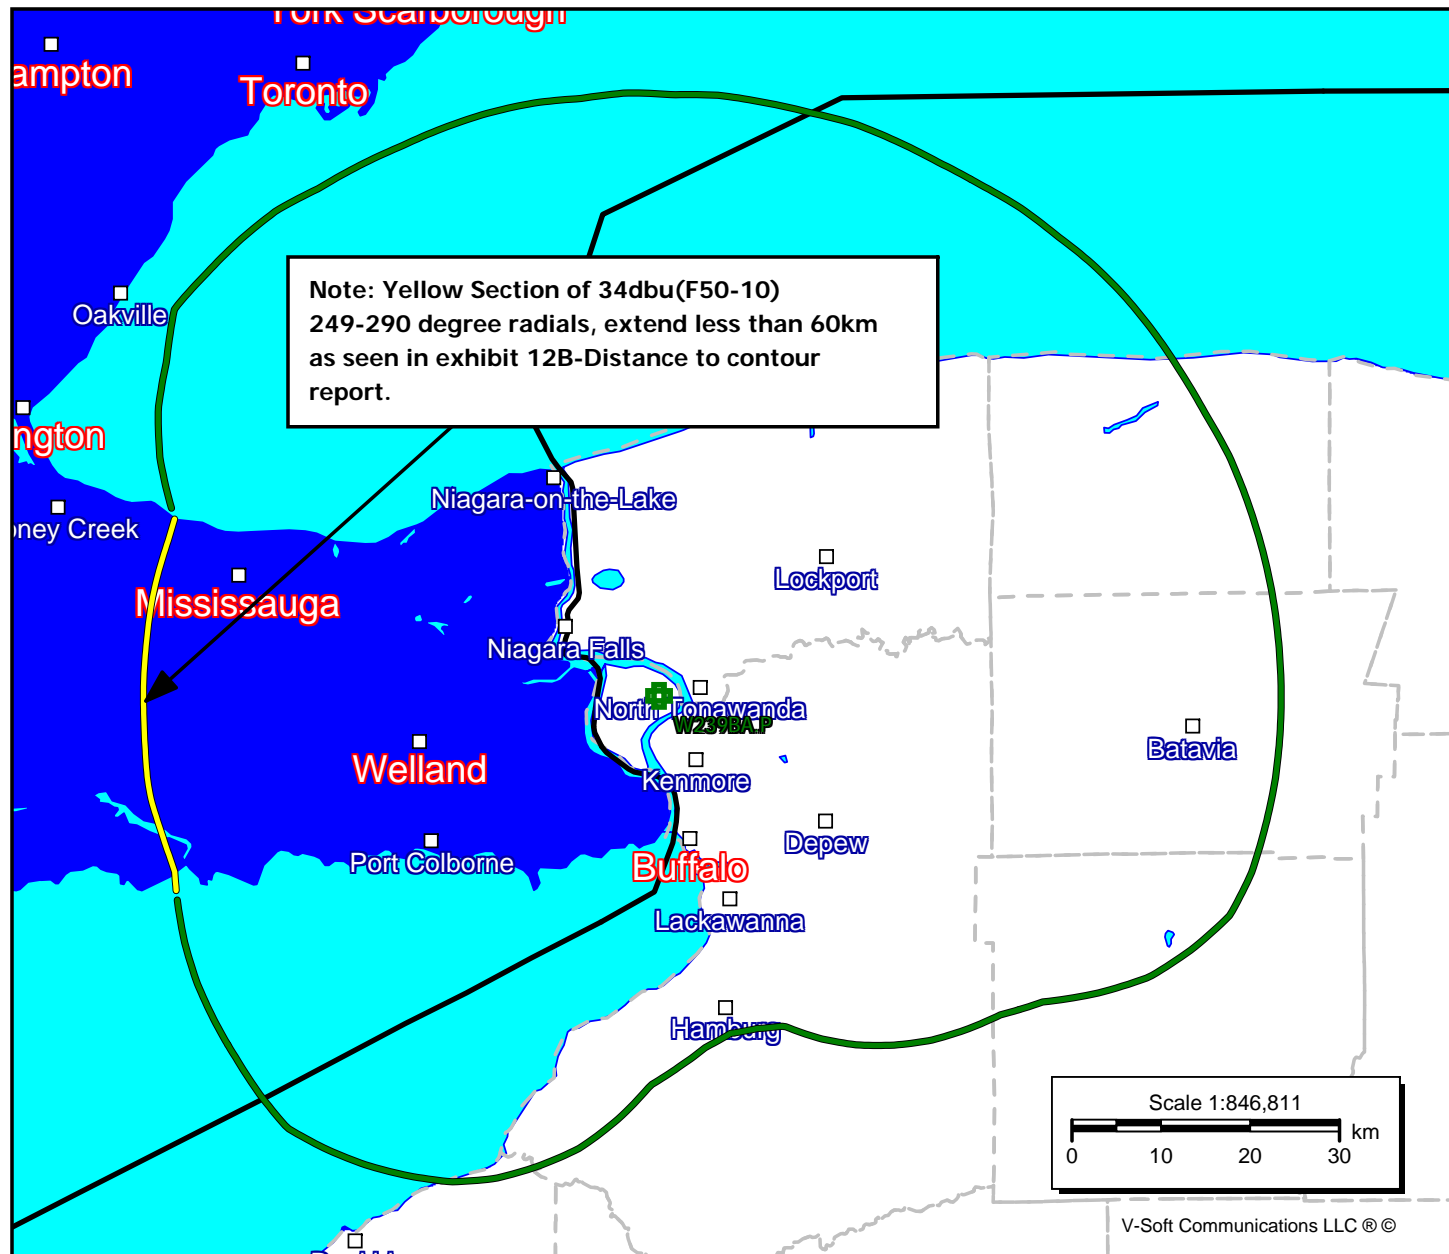

The proposed FM translator is located approximately 6.9km from the Canadian border. FLM has included the attached map (see Exhibit 12A) to show that the 34dBu interfering contour of the proposed translator does extend beyond the Canadian border. As seen in exhibit 12B, the distance to the 34dbu(F50-10) contour does not extend beyond the 60km distance over Canadian Soil.

Canadian facilities have been studied and no interference will occur as seen in the contour studies.

Therefore, the proposed translator fully complies with the requirement of 47 C.F.R. 74.1235(d) of the Commission's rules.
