July 20, 2009

In evaluating the proposed conversion to digital for K43JV (K34DW), FID 67023, Channel 43 was found to cause lethal levels of interference to KBUY-DT, Provo, UT and KUED-DT, Salt Lake City, UT. A search was made and channel 16 (T) was identified as a displacement channel with acceptable coverage. After thorough searching, channel 16 was found to cause no lethal levels of interference to other stations. Thus, Three Angels Broadcasting Network respectfully requests that the Commission look favorably on this application.
