Family Life Educational Foundation  
Station KLFO-FM  
6652 N. Club Dr.  
Shreveport, LA 71107

Dear Mr. Moore:

We have reviewed the proposed application of KFLO-FM for consent to increase the effective radiated power of KFLO-FM and to add horizontal polarization and change the directional pattern at its existing site.

Insofar as the proposed KFLO-FM facility is within the reference distance to KTAL-TV, Channel 6, you have requested that we provide consent to the filing of your application. You have informed us that you do not believe that the proposed operation will cause any interference to KTAL-TV's operations, especially since KTAL-TV will be discontinuing operations on Channel 6 beginning on February 17, 2009, and will begin operations on its post-transition DTV channel, Channel 15. You also have indicated that due to budgetary reasons, you will not begin operations with the modified facilities until after that date.

Based upon all of the forgoing, we have no objection to the filing of your application.

Sincerely,

A handwritten signature in black ink, appearing to read "Perry A. Sook". The signature is written in a cursive, flowing style.

Perry A. Sook  
Chairman/President/CEO
